

LEADING DIGITAL

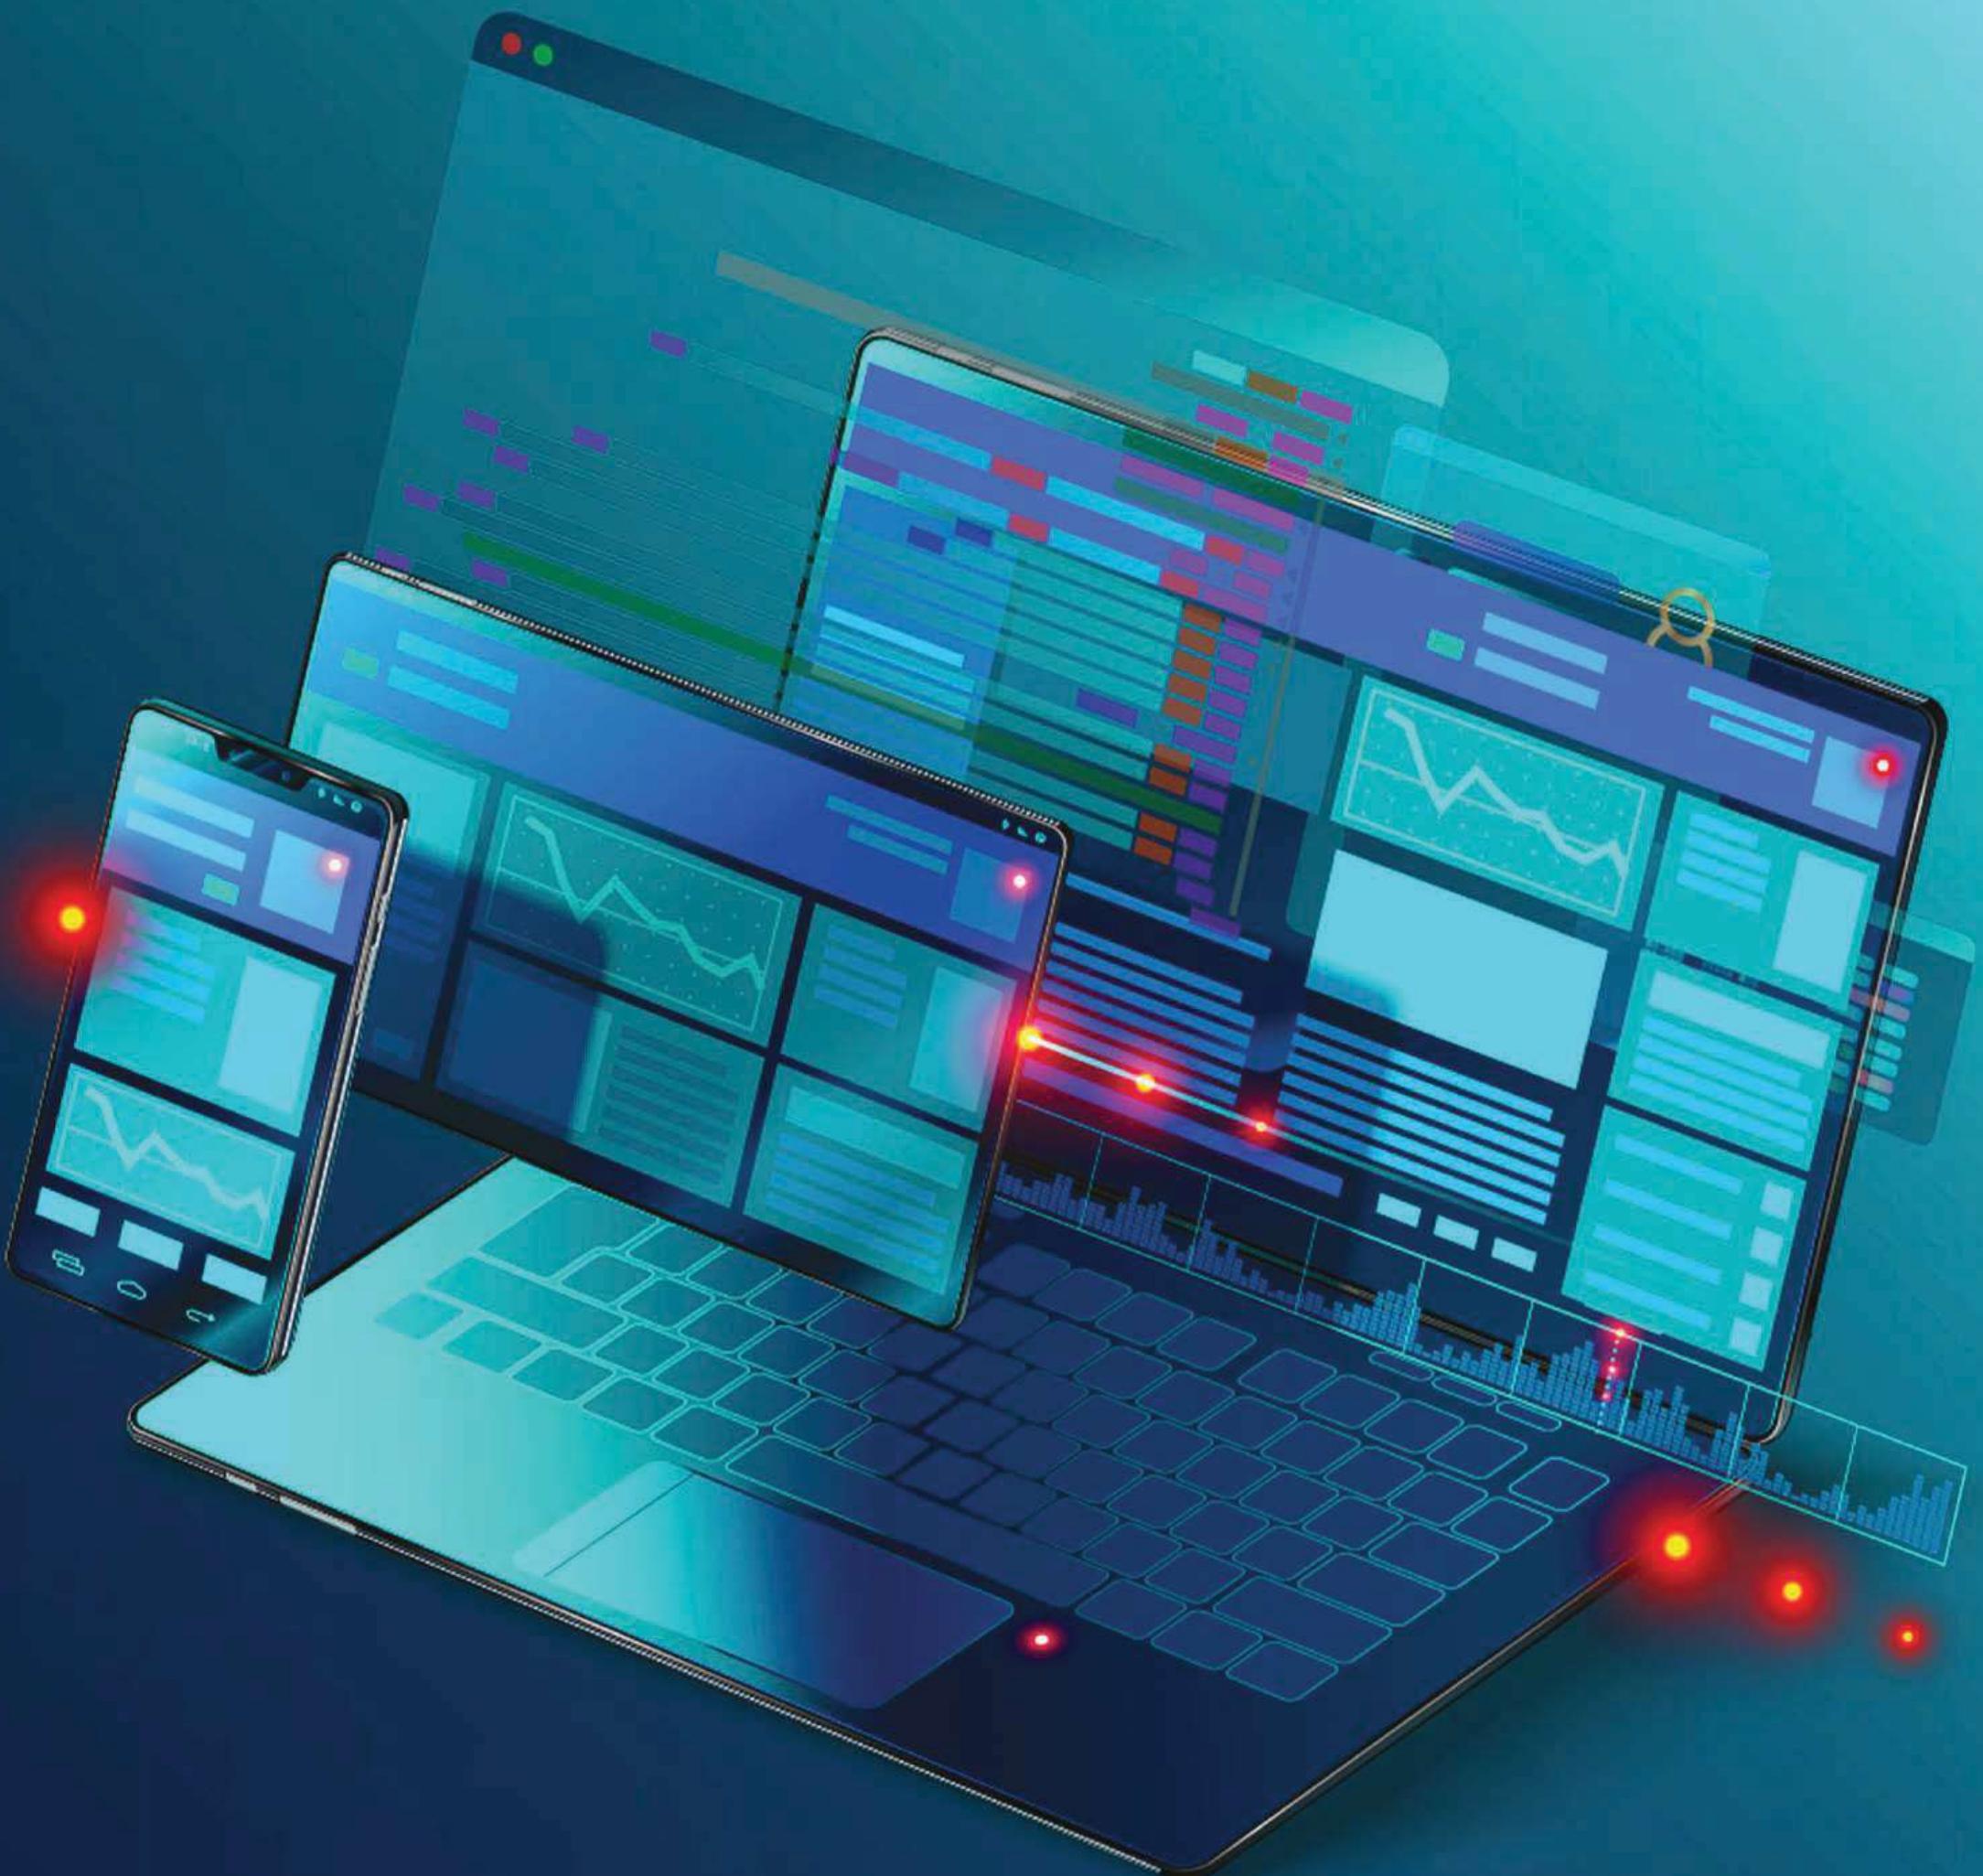

Portfolio

LEADING DIGITAL,

Leading Digital is a beacon of innovation in the tech world. We offer a suite of digital solutions, pushing the boundaries of what's possible in technology and business transformation. With our global expansion, we're not just growing; we're redefining digital excellence on a global scale.

Pioneering Sustainable Innovation

WHERE DIGITAL MEETS STRATEGY,

Our Mission

Our Journey To Transformation

To create digital solutions for our clients that enhance and transform their business processes, strategies and operations, ensuring optimum performance.

Our Vision

Light In The Tunnel

To be the “benchmark” in business digital transformation.

CUSTOM MADE SYSTEMS & MOBILE PLATFORMS

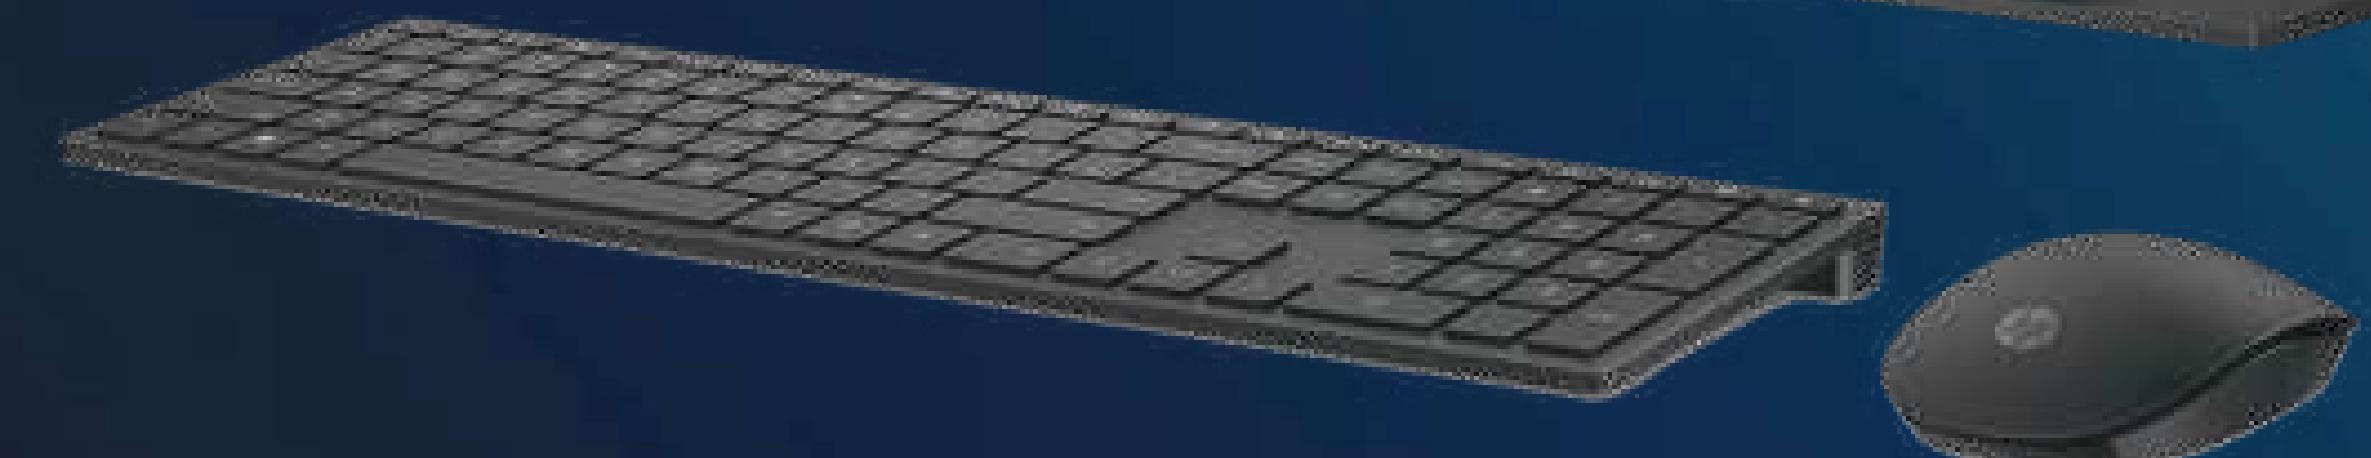

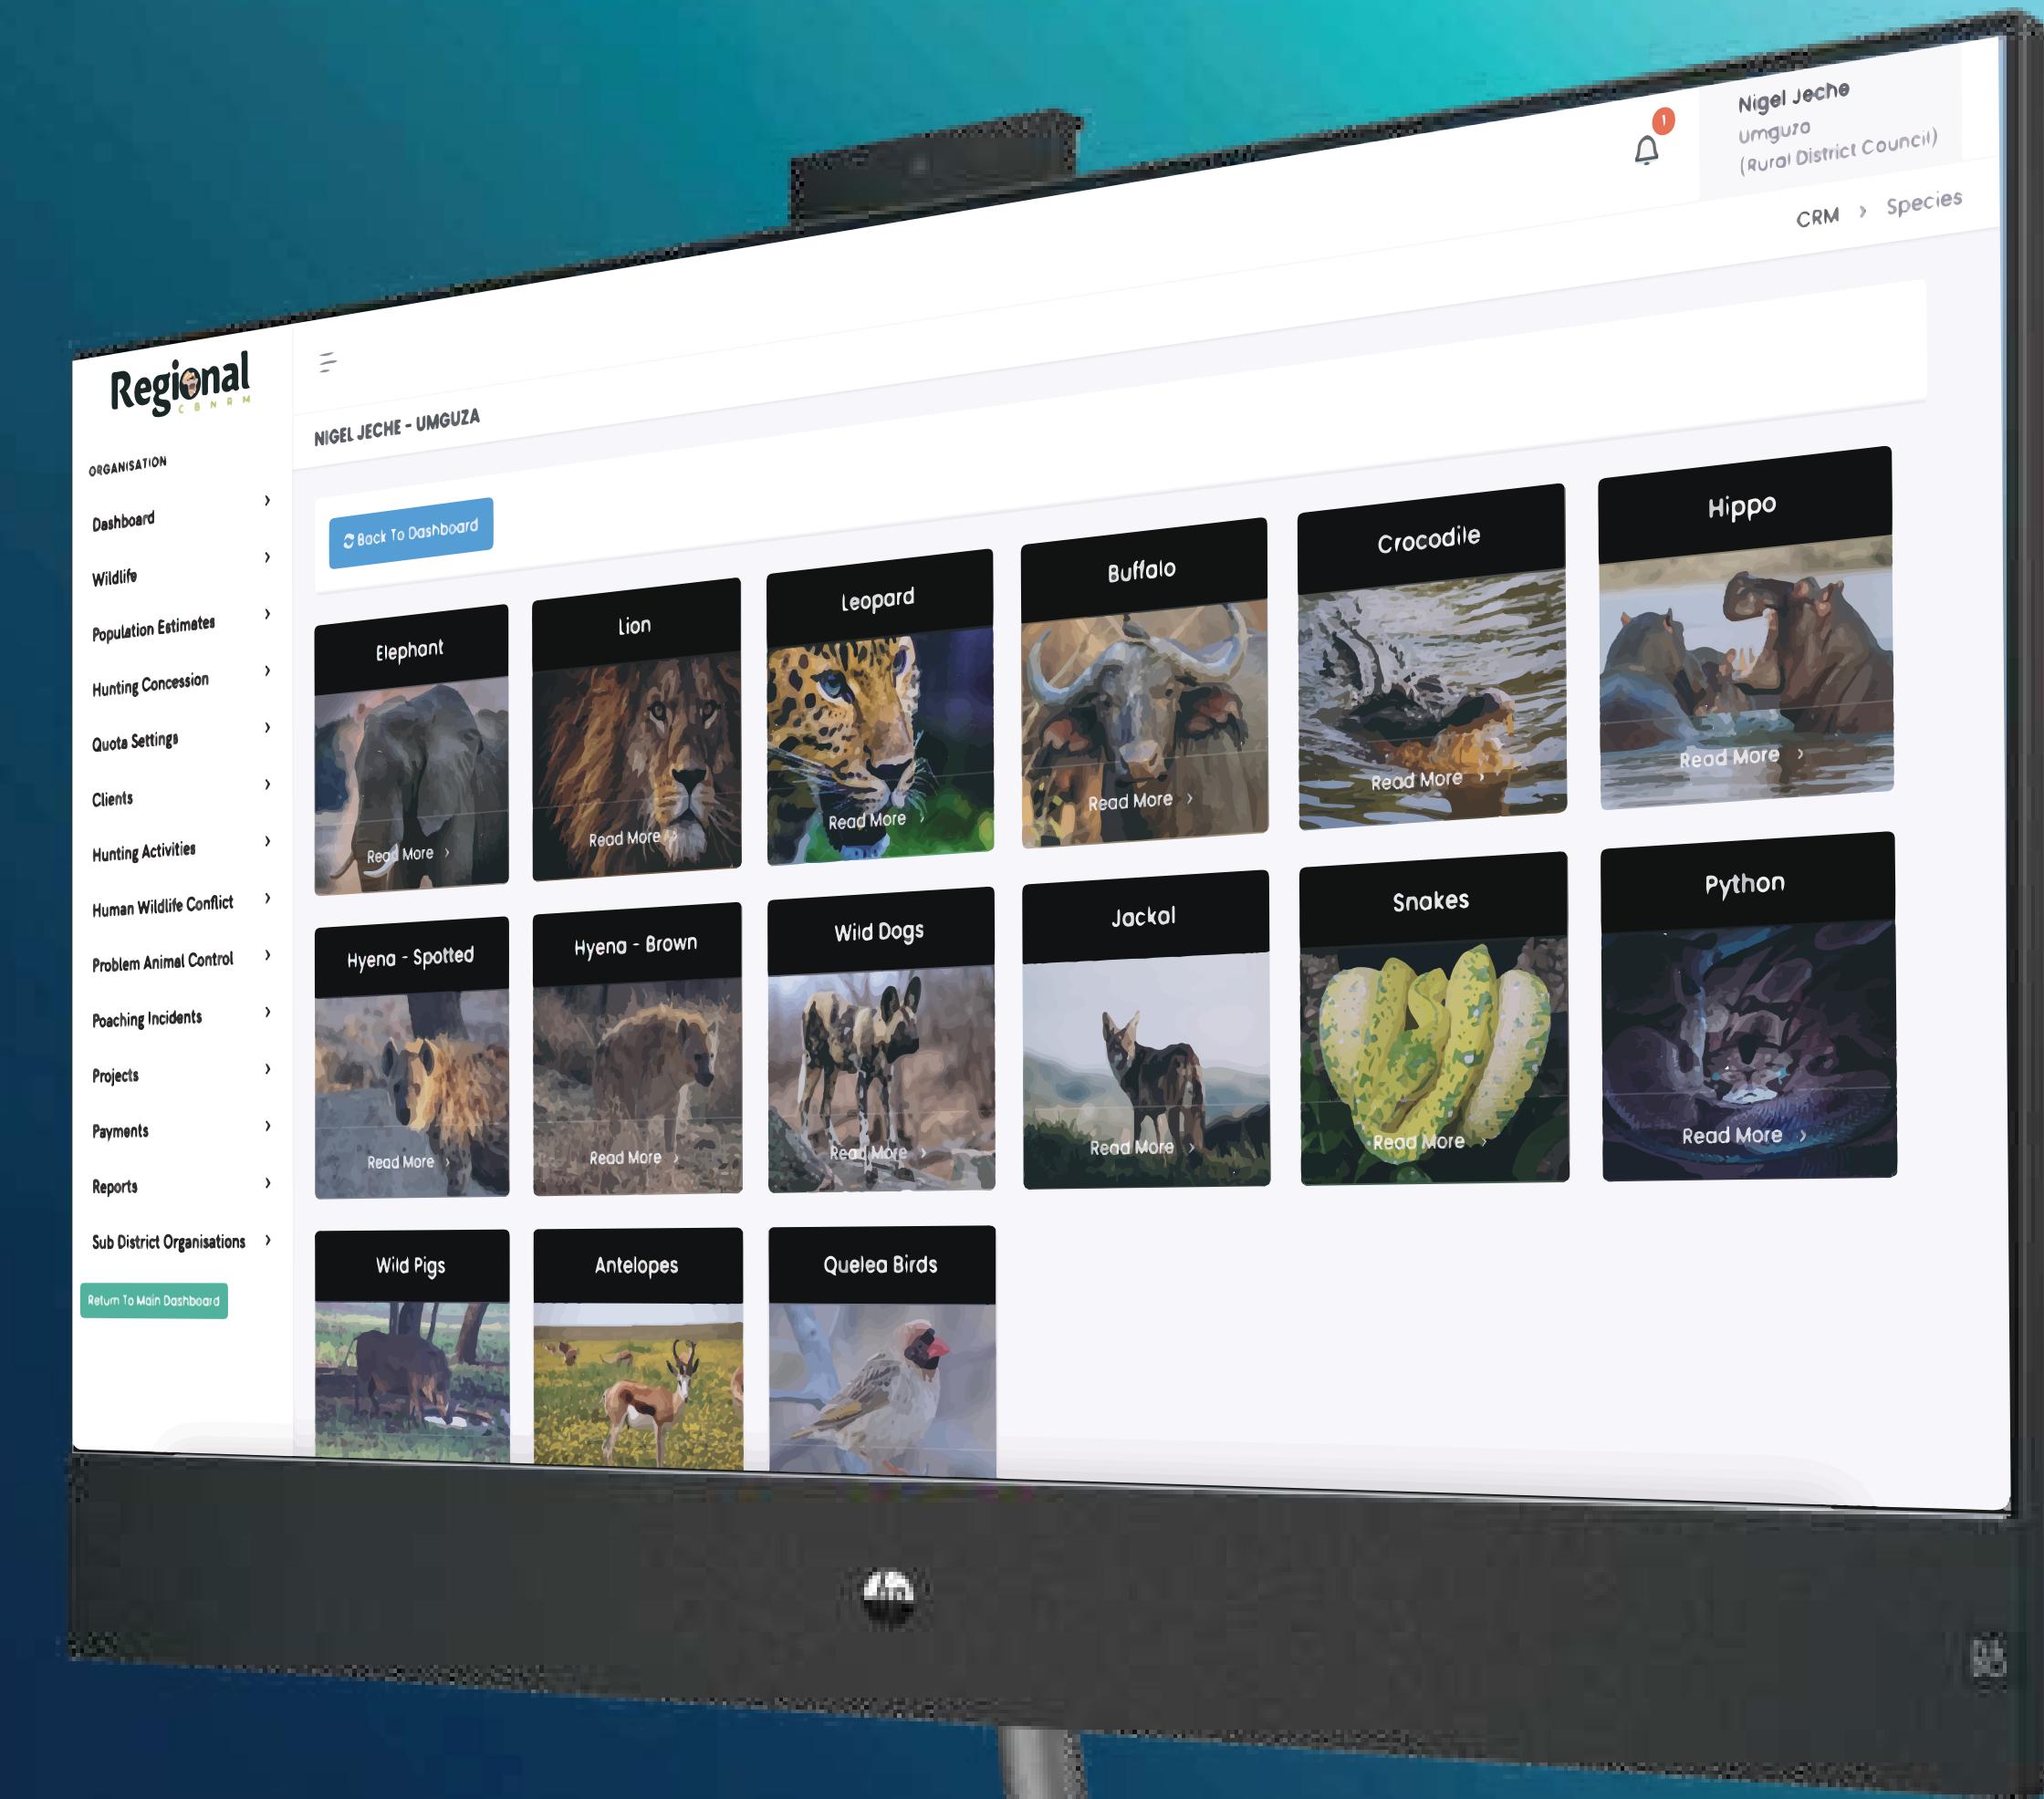

Athlon Loan Management

Loan management
system

The image illustrates the Athlon Loan Management system's user interface across two devices. On the left, a desktop monitor displays the 'Officer Management' dashboard. The dashboard features a summary card with 'Total Officers: 1', 'Active: 1', 'Inactive: 0', 'Need Password Reset: 1', and 'With 2FA: 0'. Below this is a search and filter section with fields for 'Search by name, email, mobile...', 'Status: All Statuses', and 'Officer Type: All Types'. A button for 'Clear Filters' and an 'Export' option are also present. The main list shows one officer entry: 'Vincent Honest Guyo' with National ID '63-2321066-F-71', role 'General Manager', and status 'Password Reset Required, 2FA Disabled'. On the right, a smartphone displays the Athlon mobile application. The home screen includes a 'Complete Your Profile' banner, an 'Athloan Card' section with a virtual card, and several 'Instant Actions' buttons for 'Apply for Loan', 'Send Credit', 'Shop Now', and 'One-Tap Repay'. At the bottom, there are 'Quick Services' links for Home, Shop, Loans, Insights, and Profile.

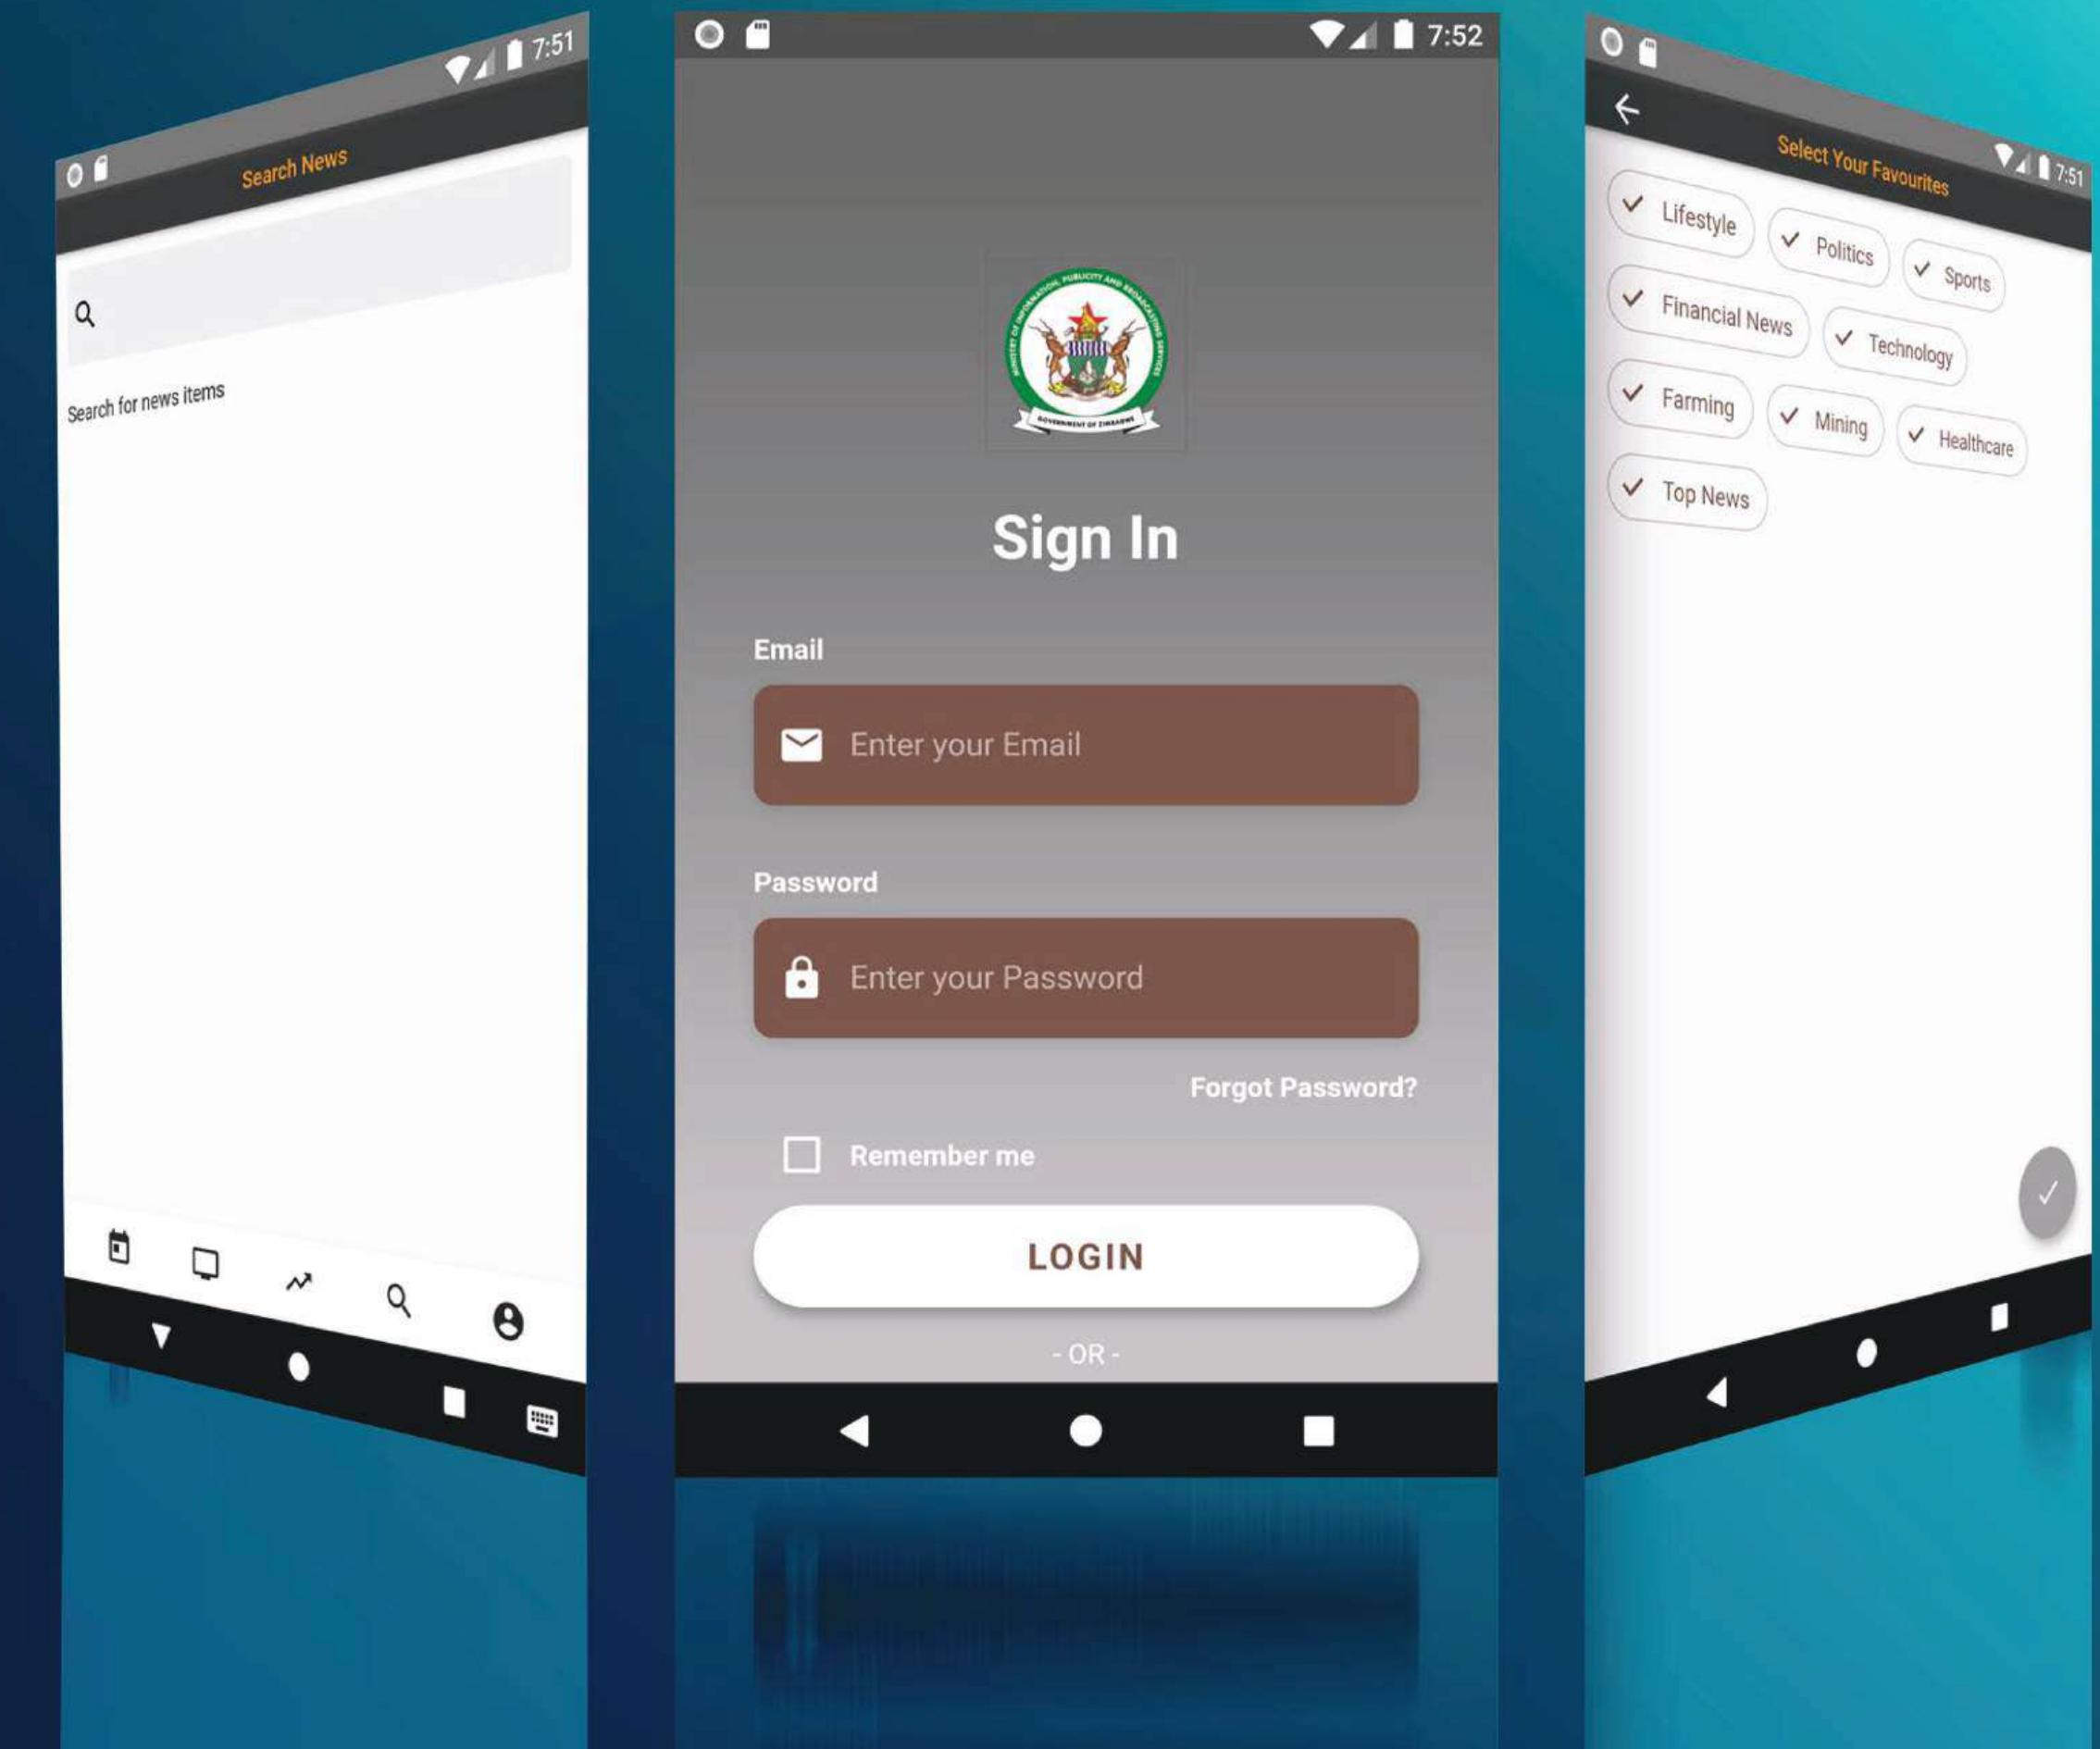

Resource Africa

Resource Africa supports rural African community efforts to secure their rights to access and use their natural resources in order to sustain their livelihoods. We help to build strong platforms for collaboration, knowledge and skills sharing among community-based organisations and other stakeholders across southern Africa and beyond.

Ministry Of ICT

CyberSafe Ministry is a state-of-the-art mobile app and backend system, custom-built to bolster the cybersecurity awareness efforts of the Ministry of ICT. This integrated solution empowers citizens with essential cybersecurity knowledge and equips the Ministry with the tools to monitor and educate the public effectively.

Environmental Health Practitioners Council of Zimbabwe

The EHPCZ Management Information System (EMIS) is an online platform designed to automate and streamline EHPCZ's operations related to practitioner registration, qualification verification, CPD tracking, and payment processing.

The image shows two computer monitors side-by-side, both displaying the EHPCZ Management Information System (EMIS) interface. The left monitor displays a table titled 'Professions' with four rows of data:

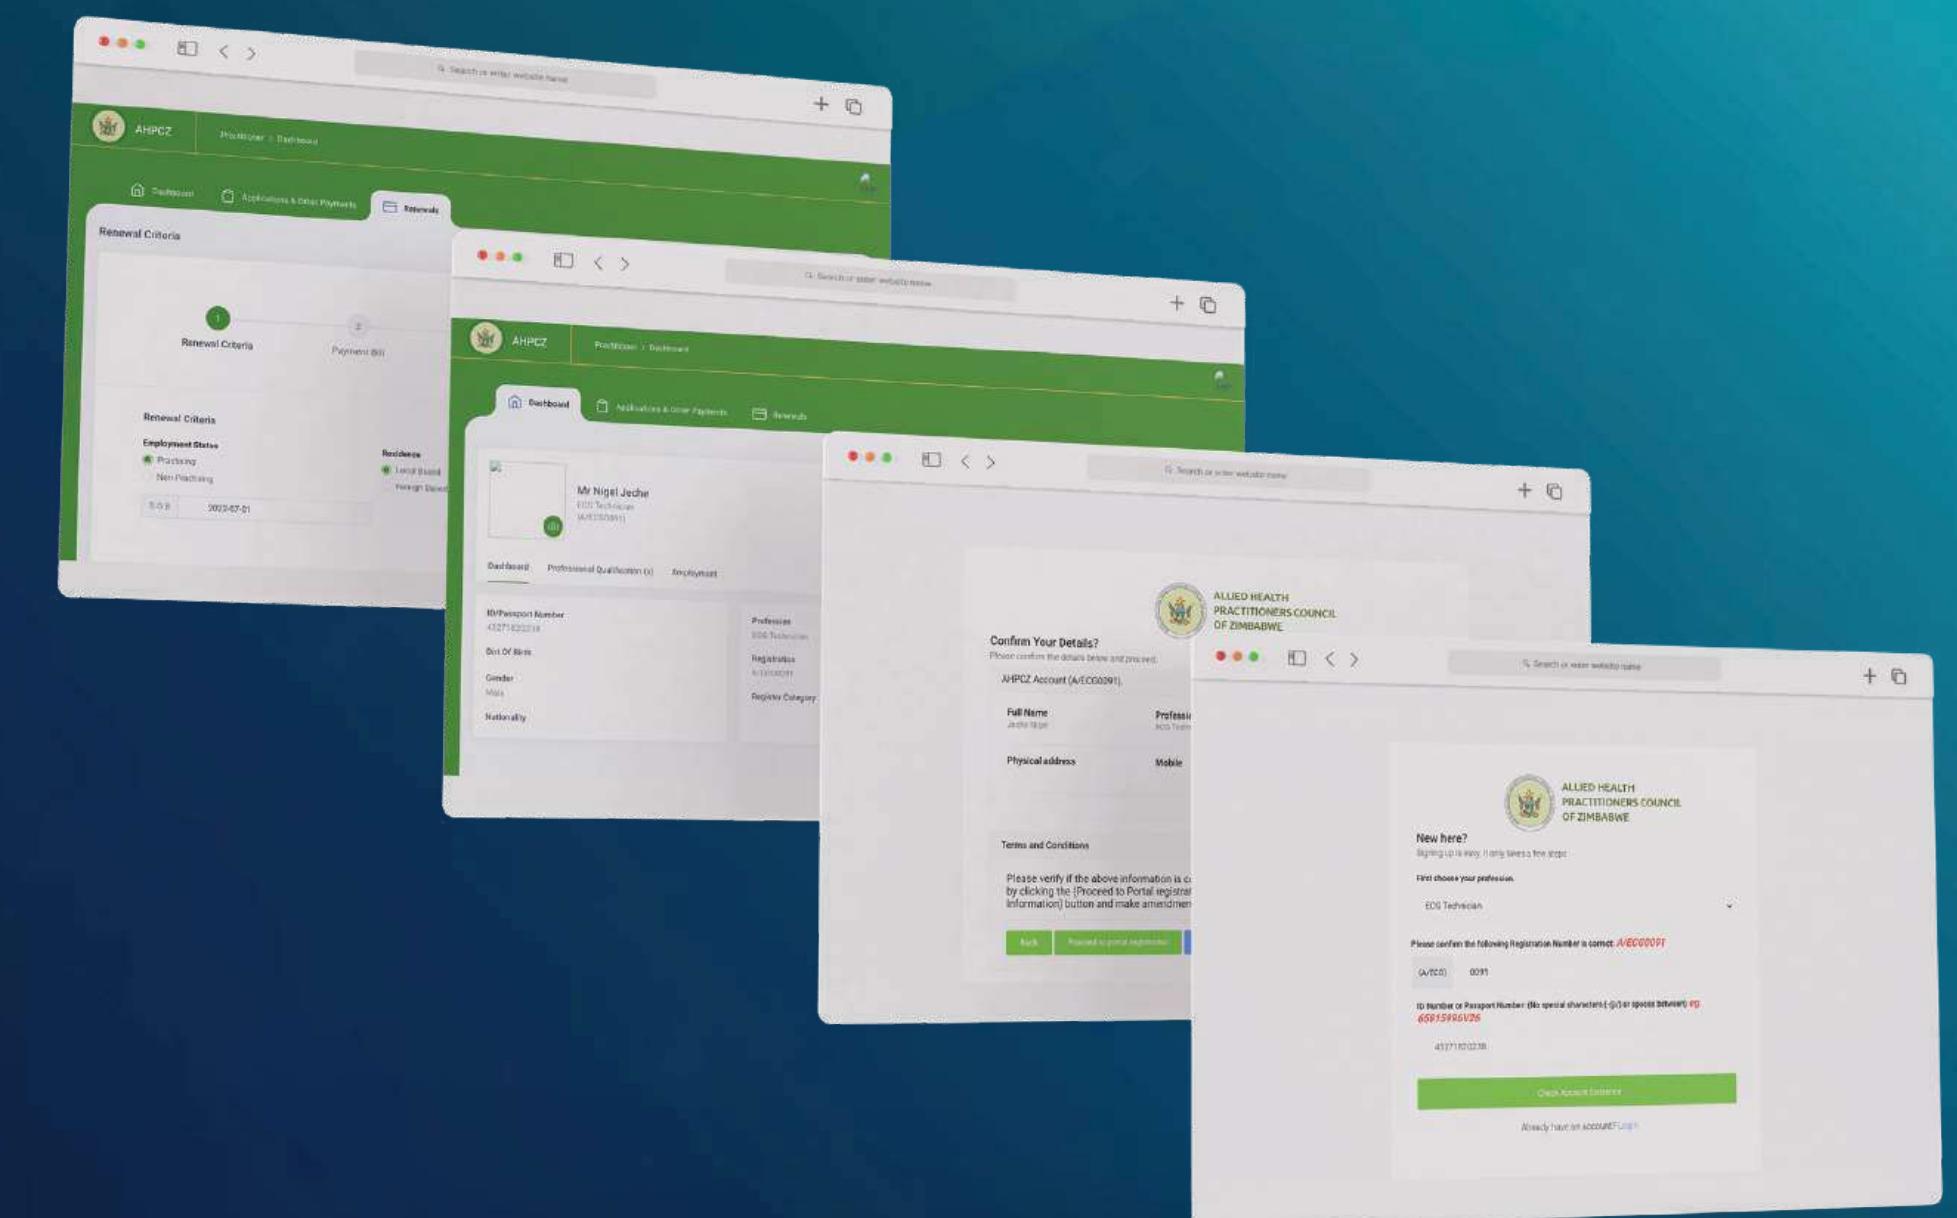

Profession	Professional Prefix	Expiry	Fees	CPO points	Requirements
Environmental Health Officer		end of September every year	Fee:	CPO points:	Requirements:
Environmental Health Technician		end of June every year	Fee:	CPO points:	Requirements:
Nurs Examiners		end of September every year	Fee:	CPO points:	Requirements:

The right monitor displays a dashboard with several green buttons labeled: Professions, Qualifications, Accredited Institutions, Requirements, Registrars, Application categories, Practitioners, Registrations, and Penalties. The top left corner of the dashboard shows a user profile for 'Nigel Dache Admin'.

Allied Health Practitioners Council of Zimbabwe

The AHPCZ Management Information System (AMIS) is an advanced online platform meticulously crafted to enhance and simplify the operations of the Allied Health Professions Council of Zimbabwe (AHPCZ). It facilitates seamless processes for practitioner registration, qualification validation, CPD (Continuing Professional Development) monitoring, and efficient payment processing.

ProcureEASY

ProcureEasy is a comprehensive procurement system designed to streamline the procurement process within organizations and between customers and suppliers.

It enhances efficiency by allowing real-time monitoring of transactions, reducing delays. Features like automated requisition approvals, budget tracking, and vendor management ensure policy compliance and financial control. The system also aids in making cost-effective decisions and supports seamless communication, strengthening buyer-supplier relationships and accelerating the procurement cycle, making it an invaluable tool for optimizing supply chain management.

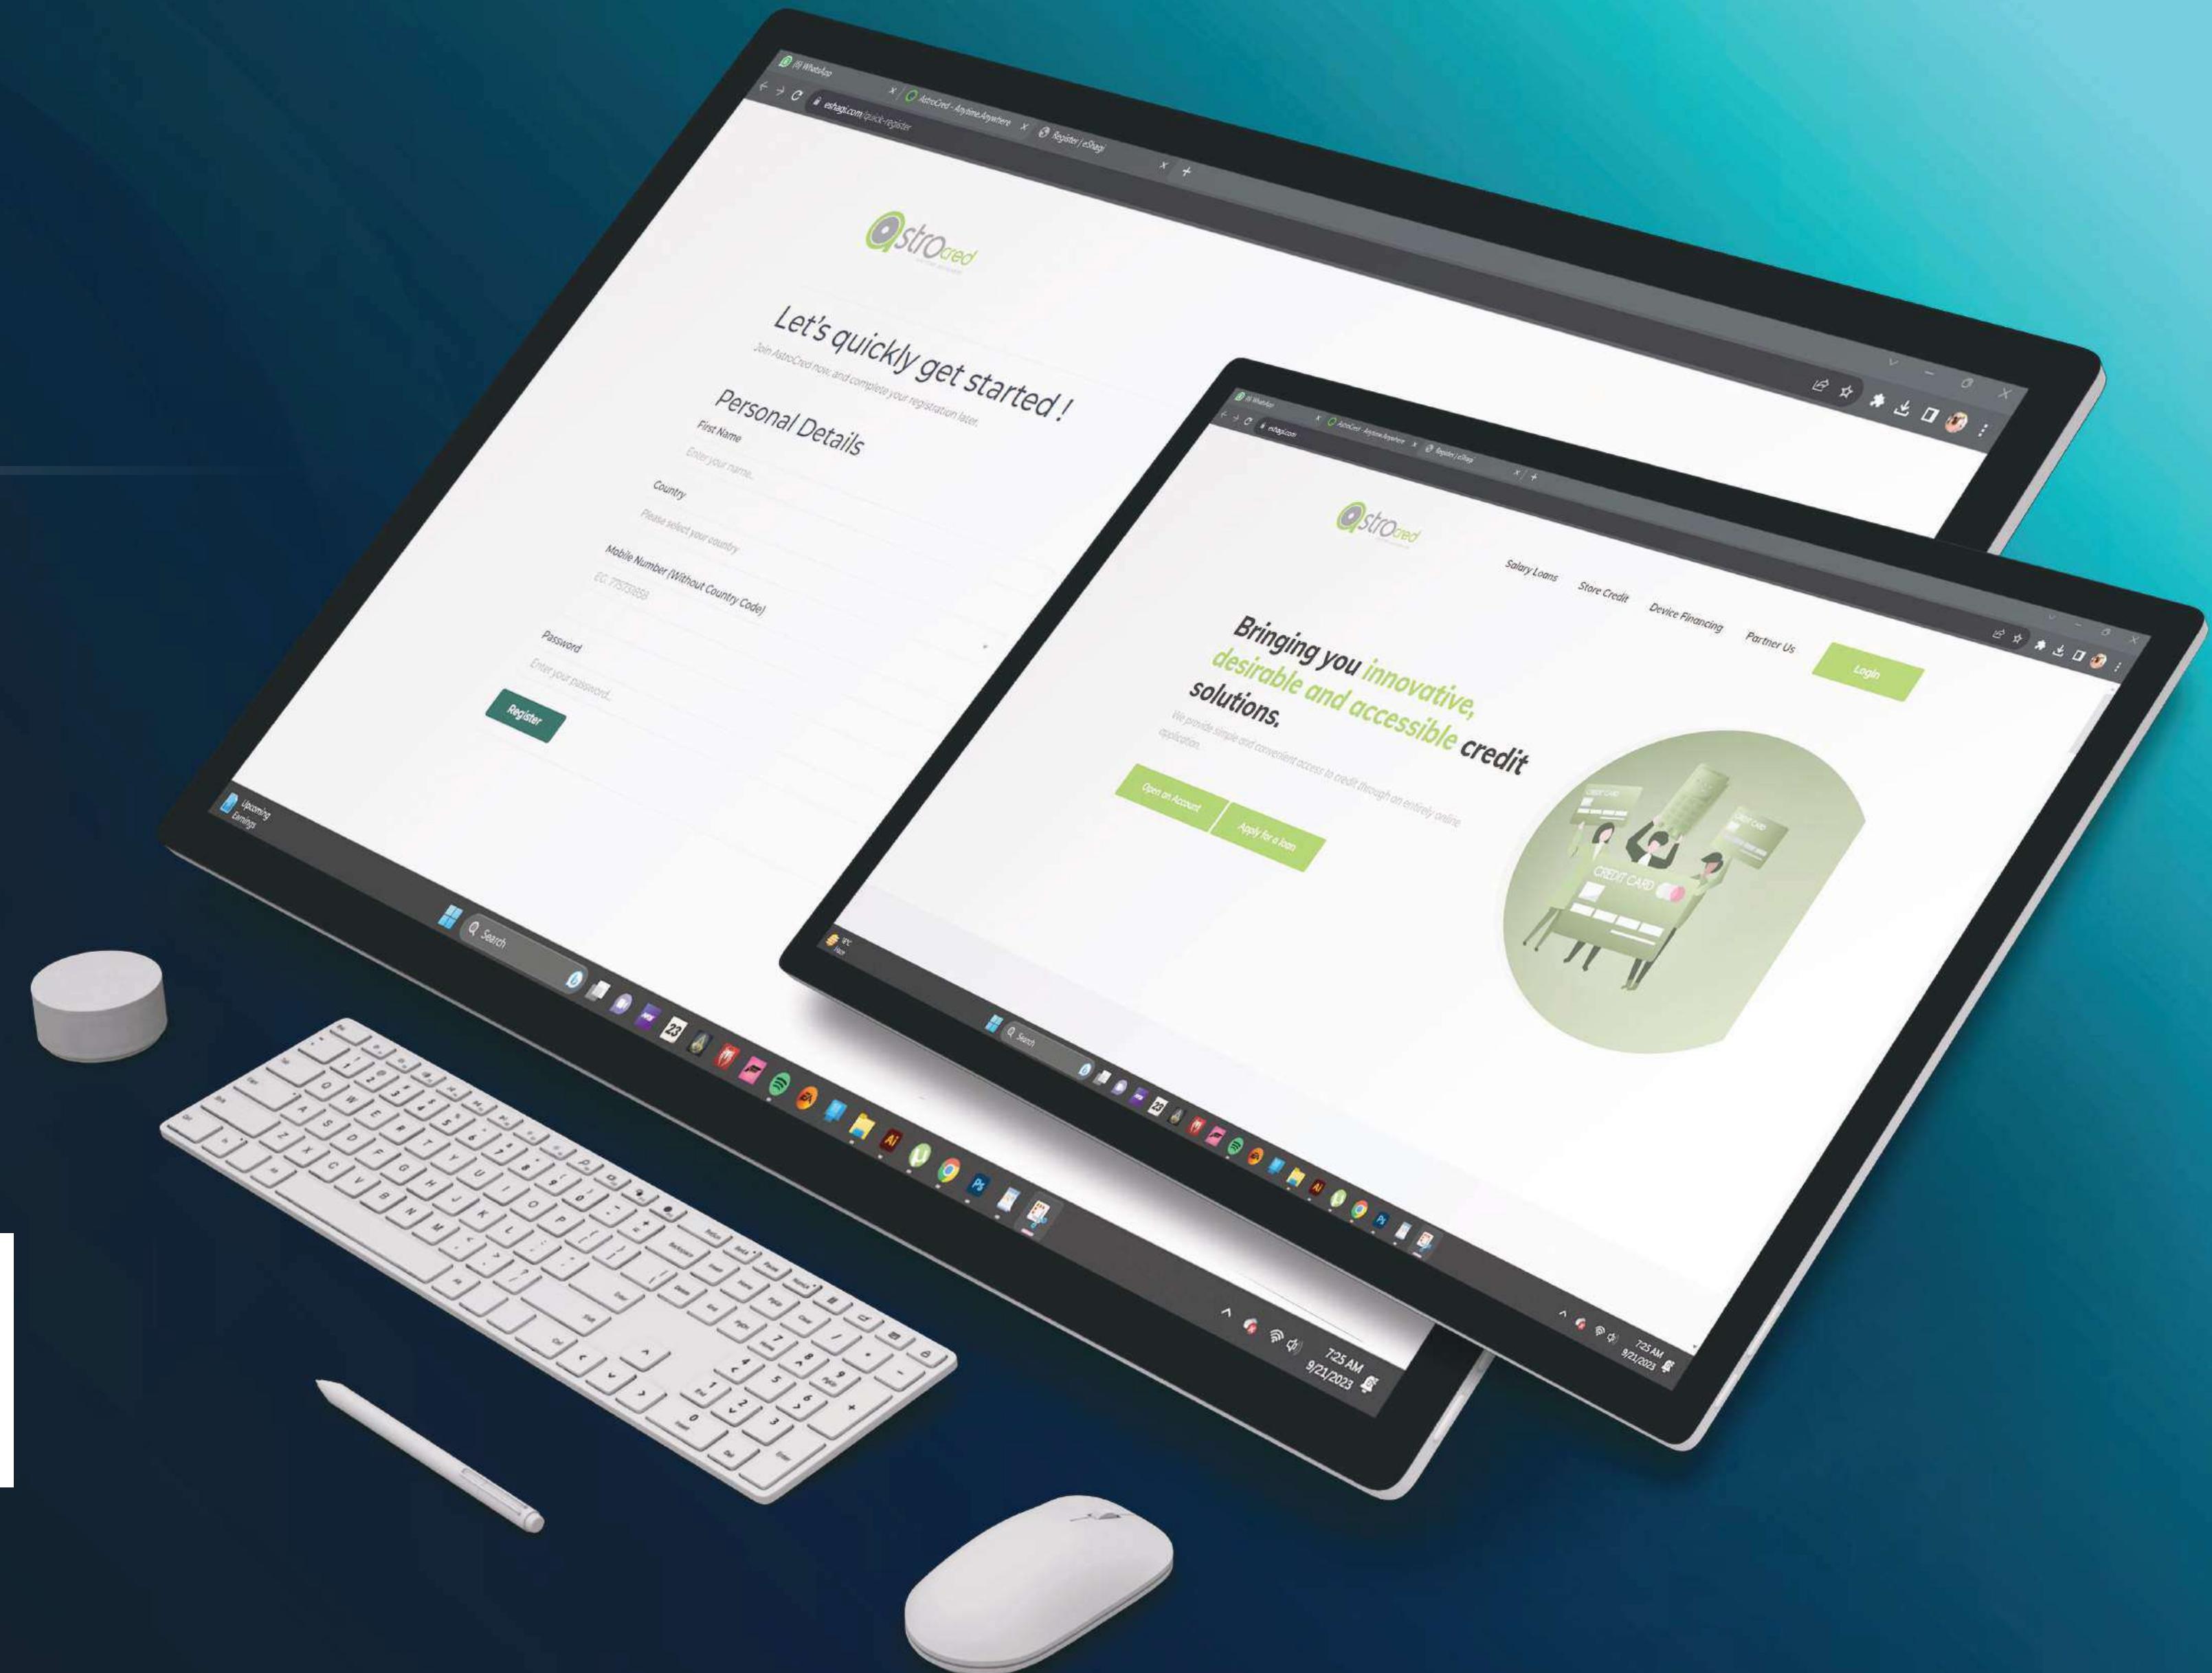

The screenshot displays four overlapping windows of the ProcureEasy web application:

- Top Window:** Shows the "Approvals" page with a search bar and a table of approval requests. One row is visible: RQ0001, IT Department, IT Admin, Approved_by_finance_officer, 2024-06-11. Actions: View, Edit, Approve, Delete.
- Middle Left Window:** Shows the "Requisitions" page with a search bar and a table of requisitions. One row is visible: RQ0001, IT Department, IT Admin, Approved_by_finance_officer, 2024-06-11. Actions: Copy, CSV, Excel, Print, PDF.
- Middle Right Window:** Shows the "Department Requisitions" page with a search bar and a table of requisitions. One row is visible: RQ0001, IT Department, IT Admin, Approved_by_finance_officer, 2024-06-11. Actions: View, Edit, Approve, Delete.
- Bottom Window:** Shows the "ProcureEasy Administration" page with a sidebar menu including Admin, Requisitions, RFQs, Quotation/Bid Evaluation, Purchase Orders, Manage Suppliers, Invoicing & Payments, and Budget Control.

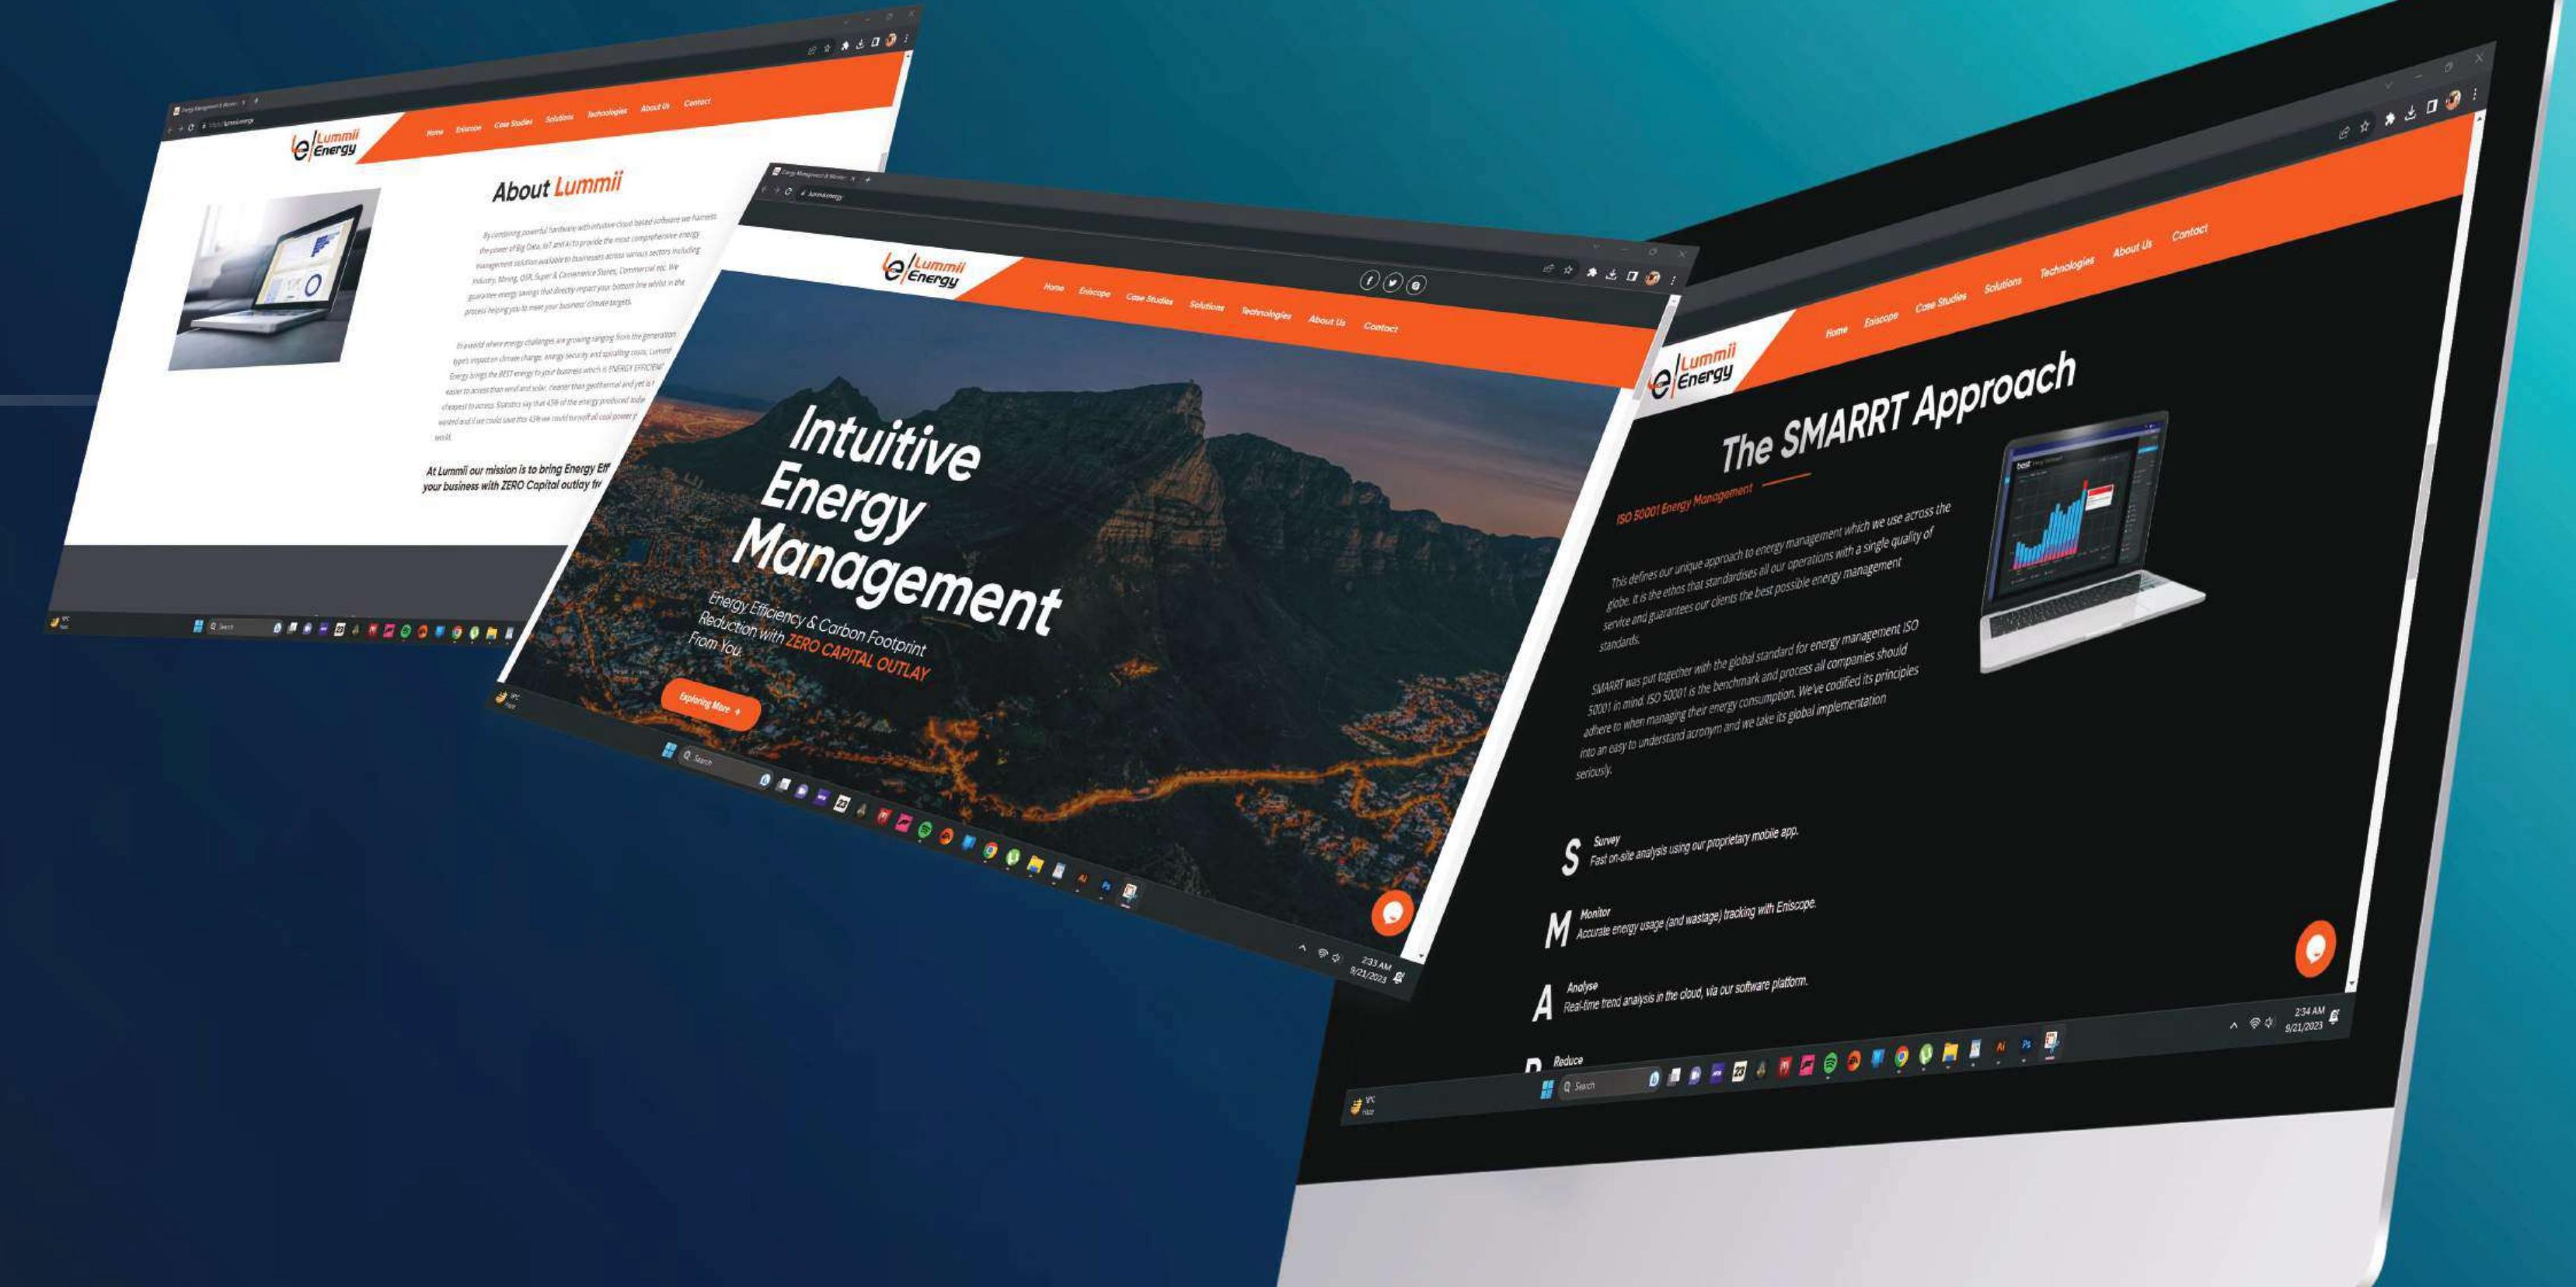

The application has a dark blue header bar with icons for sun, bell, and user profile.

E-SHAGI

The E-SHAGI Mobile and Web App is a powerful financial platform that combines the convenience of mobile and web interfaces to provide simple and accessible credit solutions. Designed to meet financial needs, this integrated application offers a seamless experience for applying for and managing credit entirely online.

Blackfordby College of Agriculture

School management system
and portal

SmartStudent

School management system

The image shows a screenshot of the SmartSchools school management system. The interface is clean and modern, featuring a dark header bar with the 'Smart Schools' logo and a search bar. The main content area is divided into several sections:

- Left Sidebar:** A navigation menu with sections for ORGANIZATION (Grade Levels, Classes, Academic Years, Terms, Subjects, Fee Items, Students), PEOPLE (Students, Staff), and SETTINGS (School Settings).
- Header:** Displays the student's name, Breanna Abbott, and student ID, STU10261.
- Buttons:** Edit Student, Back to List.
- Tabs:** Personal Information (selected), Performance, Payments, Promotion History.
- Student Details:** A summary card showing the student's number (STU10261), full name (Breanna Abbott), gender (Female), date of birth (March 25, 2015), age (10 years), address (1364 Kylee Ridge Newbury, MA 00712-7455), and classroom (Grade 5B).
- QR Code:** A QR code for the student, with options to Download PDF or View QR Code.
- Information:** A note stating "The PDF contains scanning instructions for students and parents."

Sentinel FRAUD DETECTION System

The Sentinel Fraud Detection System was developed to monitor and detect anomalies in managing agricultural schemes. Its goal is to ensure food self-sufficiency at the household level through the adoption of conservation agriculture techniques
